# HubPharm Impact & Growth Report: Transforming Lives Through Health Solutions

Advancing Health and Empowering Communities through innovative solutions and extraordinary care.

# Message from Our Founders

## Our Commitment to Health, Community, and Growth

At HubPharm, we believe in transforming lives through accessible healthcare. Our vision is to make **reliable access and adherence to life-saving medication** the standard of care — not a privilege — for African families. Together, we strive to promote well-being and economic growth across Africa.

## Medicine Packs Delivered

Over **300,000 medicine packs** have been delivered in 2025, ensuring that individuals and institutions have **access to specialty medications** and coordinated care that can save lives and improve health outcomes.

## Lives Impacted

We positively impacted **160,000+ lives in 2025**, enhancing health outcomes through proactive interventions and **community engagement** to promote better health practices.

# Health Impact Summary

A visual representation of our significant contributions to health and community wellbeing.

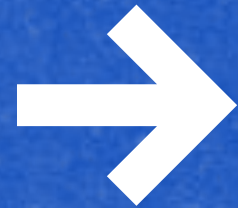

## Educational Outreach

With **105,000+ individuals educated online**, we are committed to empowering communities with knowledge and resources to make informed health choices for a better future.

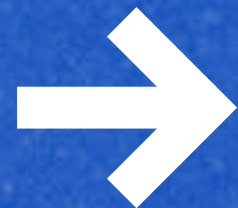

# Health Screenings Impact Summary

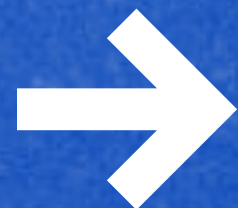

## Health Screening Overview

Our health screenings are crucial for identifying major health issues in the community, allowing early intervention and treatment for various conditions.

## Breakdown of Health Conditions

The screenings reveal significant rates of hypertension, hyperlipidemia and diabetes, highlighting the need for ongoing health education and support in our communities.

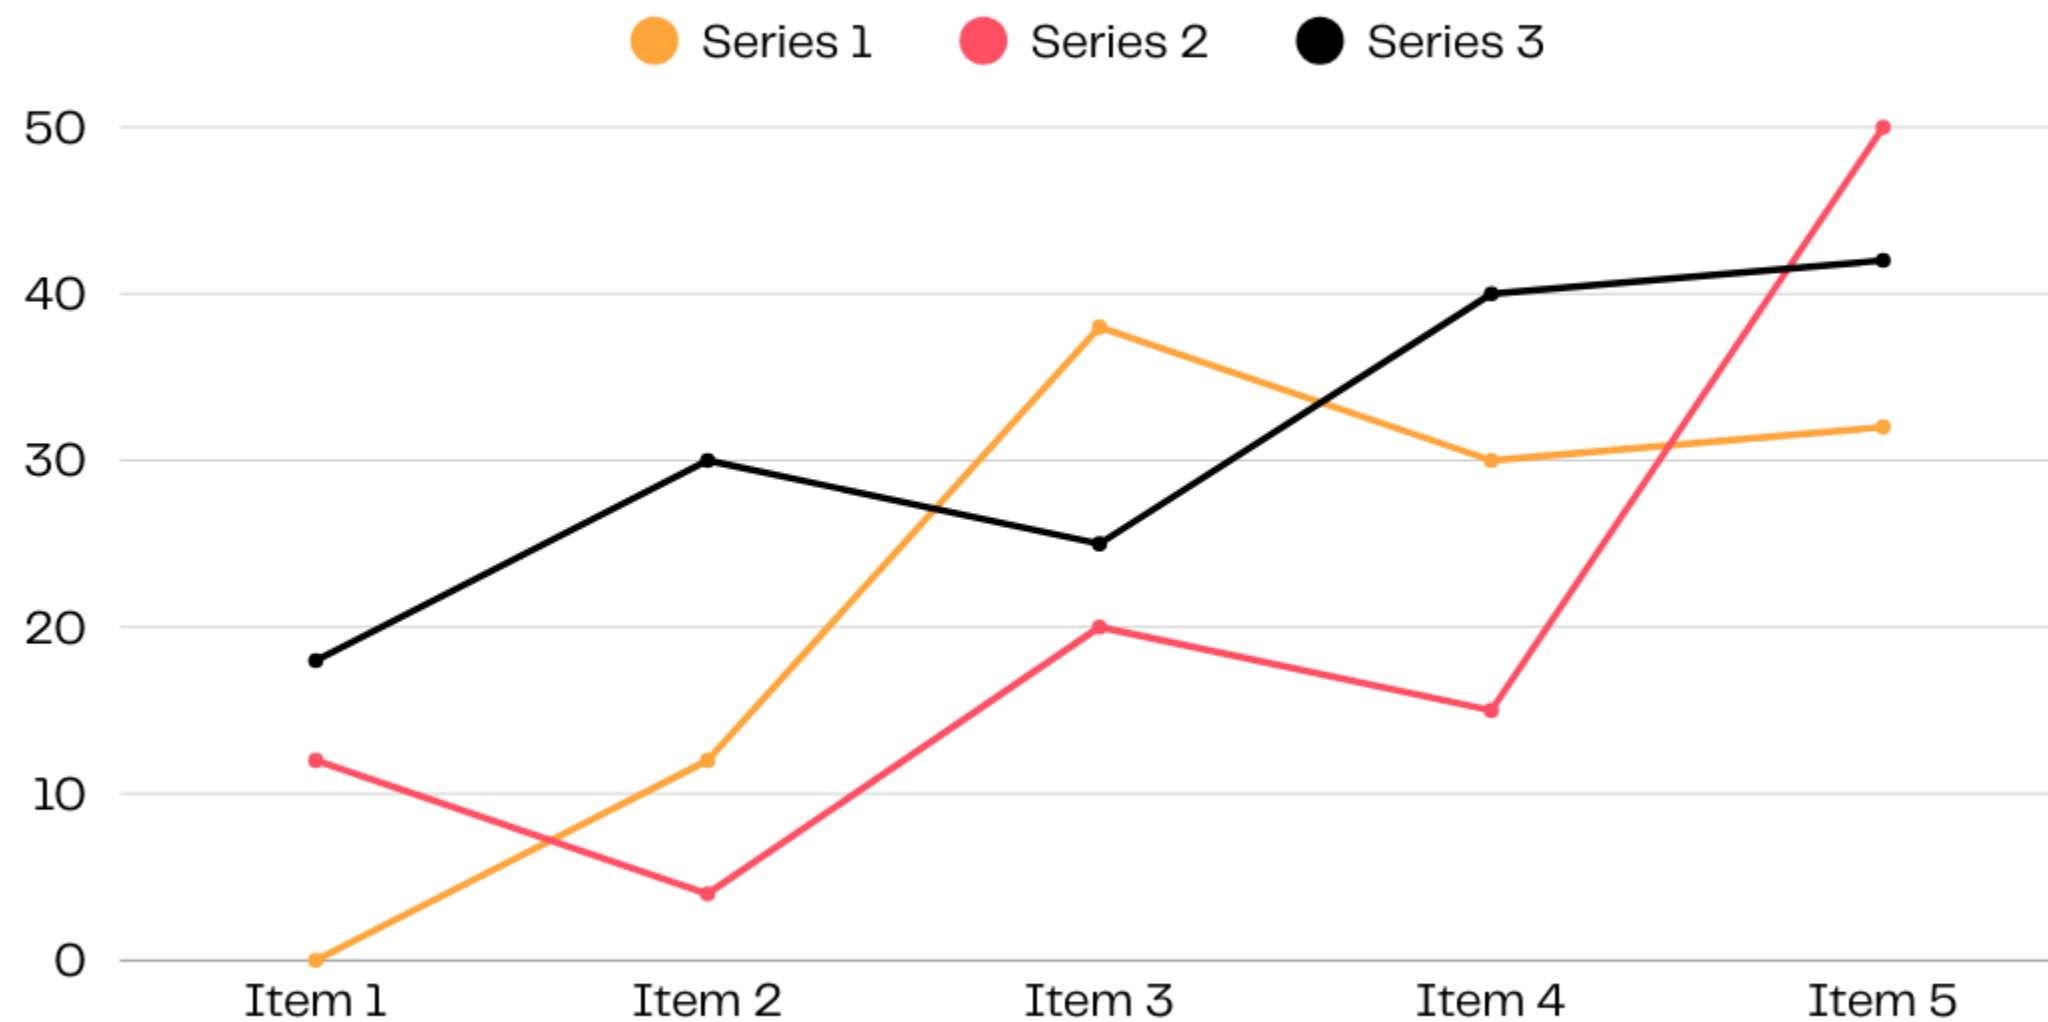

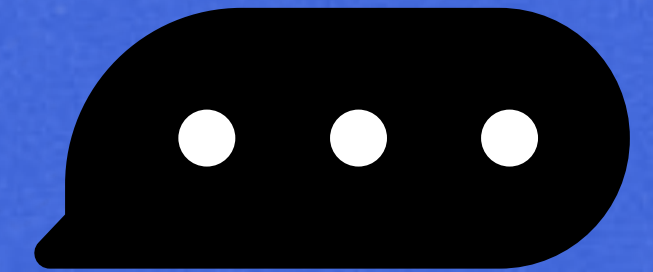

## Importance of Regular Health Screenings

- Early detection leads to better treatment outcomes.
- Community engagement increases awareness of health risks.
- Promoting healthier lifestyles through education and resources.

# Economic Empowerment and Financial Performance

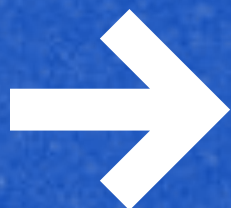

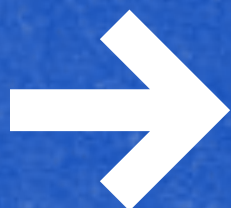

**An overview of HubPharm's significant contributions to job creation and sustainable economic growth in our community.**

In the past year, HubPharm has successfully created **7 new jobs**, making our total workforce to be 12, with an impressive **55%** of these positions held by women. Our revenue in 2025 was \$135,500, with a **35%** profit margin, achieving over **350%** year-on-year growth, reflecting our commitment to economic growth and sustainable development.

# 2024 Vs 2025 Growth Trajectory

## HubPharm Growth Summary

	2024 1 <sup>st</sup> Year	2025 2 <sup>nd</sup> Year	% Increase
Revenue	\$35,200	\$135,500	370.2%

## Community Consultation

Our community consultations have successfully reached **22,000+ Africans**, providing essential health screenings and information to improve overall well-being and empower individuals in their health journeys.

## Health Empowerment

By aligning our services with **SDG goals**, we strive to foster better health outcomes, decent work opportunities, and collaborative efforts for sustainable growth and community well-being.

# Education and Engagement

Empowering through knowledge: **105,000+ learners** engaged through our online platforms, enhancing health literacy and promoting proactive health management across diverse communities.

## SDG Alignment

Our initiatives are designed to support **SDG 3, 8, and 17**, ensuring that we contribute to global health, economic growth, and partnerships for sustainable development through our programs.

### Higher Medication Adherence

42% improvement in adherence, reducing missed doses and preventing avoidable complications.

### Fewer Emergency Crises

Reliable access to specialty medications cuts hospitalization and post-discharge relapse rates.

# Improved Health Outcomes

HubPharm improves patient outcomes by ensuring reliable access to authentic medications and sustained adherence through its AI-human coordinated care model.

### Better Chronic Condition Control

Continuous monitoring and personalized support help stabilize long-term health for chronic patients.

	2027	2030
